

Englishtype SENIOR

The Educational Typing Tutor

*Designed to meet the Special Needs of Dyslexic students
For Teenagers and Adults*

- Developed by an experienced Educational Psychologist especially for UK schools
- Designed to maximise additional educational benefits at the same time as teaching typing
- Supports general literacy learning: improves reading, spelling, grammar and punctuation
- Unique Special Needs features include:
 - ▶ Multi-sensory approach
 - ▶ Strong key / finger colour coding
 - ▶ Visually simple & uncluttered presentation style
 - ▶ Both spoken & written instructions
 - ▶ Choice of background colours
- Different, effective way to learn to spell
- Short, motivating self-taught lessons
- Arcade-style games to encourage painless practice
- Proven track record in teaching to type in a week
- Uses the 300 most commonly used words in adult vocabulary and includes quotations and proverbs
- Detailed teacher reporting package and full network functionality
- Suitable for Key Stage 3-4

"It was great to learn how to touch type, I didn't have to write with a pen, because I hated writing at that time because I find English very hard. I was top of the class. I think you should touch type it is a very good skill when you are older."

Daniel, aged 12
